Introductory statement

This Accessibility Plan has been drawn up in consultation with the management and staff of the School and covers the period from September 2017 to August 2020.

The plan will be kept under review during this period and will be revised as necessary.

This Accessibility Plan was last reviewed on September 2019.

We are committed to providing an environment which values and includes all pupils, staff, parents and visitors regardless of their educational, physical, sensory, social, spiritual, emotional and cultural needs. We are further committed to challenging attitudes about disability and accessibility and to developing a culture of awareness, tolerance and inclusion.

The plan and other relevant policies can be made available in large print or other accessible format, if required.

Provision

We plan, over time, to increase the accessibility of provision for all pupils, staff and visitors to the School in the following areas:

Increase the extent to which disabled pupils can participate in the school curriculum

Improve the physical environment of the school to increase access to education by disabled pupils

Improve the delivery of information to pupils staff parents and visitors with disabilities.

Our action plans relating to the above are part of our annual school development plan and will be reviewed annually but also as and when necessary; it is acknowledged that there will be a need for ongoing awareness training for all staff in the matter of disability discrimination and the potential need to inform attitudes on this matter.

The accessibility plan can be read with the following policies strategies and documents

- school prospectus

The plan will be monitored throughout the year in meetings with the head and facilities manager there will be a full review of the plan on September 2018 when a new plan will be introduced to cover the next three years
